

Rep. Jody Hice (GA-10) QFR

Question for Jill Stanek:

Ms. Stanek, You mentioned in your written testimony the trauma experienced by a woman whose baby was born alive and had to be tranquilized to calm her down. And you share about a father who visited the baby he had chosen to abort because of a misdiagnosis only to see that the baby had been perfectly health. Are there other situations you are aware of in which parents initially chose abortion but changed their minds?
